VOTER'S GUIDE.

COMPILED BY THE NEW YORK WORLD.

This publication, designed for handy reference during the presidential campaign, has been prepared mainly from matter of a political nature in THE WORLD ALMANAC for 1892, corrected, so far as possible, to date. This embraces the full tables of the latest election returns in all the States and Territories. There have been added the national platforms of the four political parties, the ballots for candidates for President and Vice-President in their National Conventions of 1892, the central organizations of their National Committees, a register of the State elections to be held through the year, and other statistics and information of use to everybody interested in the contest now opening. It is believed that a small, compact handbook of this kind will be a convenience to the public, and THE WORLD supplies the want.

National Platform of the Democratic Party.

ADOPTED BY THE NATIONAL CONVENTION OF THE DEMOCRATIC PARTY AT CHICAGO, ILL.,
JUNE 22, 1892.

I.—The representatives of the Democratic Party of the United States, in National Convention assembled, do re-affirm their allegiance to the principles of the party as formulated by Jefferson and exemplified by the long and illustrious line of nine of his successors in Democratic leadership, from Madison to Cleveland; we believe the public welfare demands that these principles be applied to the conduct of the Federal Government, through the accession to power of the party that advocates them; and we solemnly declare that the need of a return to these fundamental principles of free popular Government, based on home rule and individual liberty, was never more urgent than now, when the tendency to centralize all power at the Federal Capital has become a menace to the reserved rights of the States, that strikes at the very roots of our Government under the Constitution as framed by the fathers of the Republic.

II.—We warn the people of our common country, jealous for the preservation of their free institutions, that the policy of Federal control of elections, to which the Republican party has committed itself, is fraught with the gravest dangers, scarcely less momentous than would result from a revolution practically establishing a monarchy on the ruins of the Republic. It strikes at the North as well as the South and injures the colored citizen even more than the white: it means a horde of Deputy Marshals at every polling place, armed with Federal power, returning boards appointed and controlled by Federal authority; the outrage of the electoral rights of the people in the several States; the subjugation of the colored people to the control of the party in power and the reviving of race antagonisms now happily abated, of the utmost peril to the safety and happiness of all—a measure deliberately and justly described by a leading Republican Senator as “the most infamous bill that ever crossed the threshold of the Senate.” Such a policy, if sanctioned by law, would mean the dominance of a self-perpetuating oligarchy of office holders, and the party first intrusted with its machinery could be dislodged from power only by an appeal to the reserved right of the people to resist oppression, which is inherent in all self-governing communities. Two years ago this revolutionary policy was emphatically condemned by the people at the polls; but, in contempt of that verdict, the Republican Party has defiantly declared, in its latest authoritative utterance, that its success in the coming election will mean the enactment of the Force bill and the usurpation of despotic control over the elections in all the States.

Believing that the preservation of Republican government in the United States is dependent upon the defeat of this policy of legalized force and fraud, we invite the support of all citizens who desire to see the Constitution maintained in its integrity with the laws pursuant thereto which have given our country a hundred years of unexampled prosperity; and we pledge the Democratic Party, if it be intrusted with power, not only to the defeat of the Force bill, but also to relentless opposition to the Republican policy of profligate expenditure, which in the short space of two years has squandered an enormous surplus and emptied an overflowing Treasury, after piling new burdens of taxation upon the already overtaxed labor of the country.

III.—We denounce Republican protection as a fraud—as a robbery of a great majority of the American people for the benefit of a few. We declare it to be a fundamental principle of the Democratic Party that the Government has no constitutional power to impose and collect a dollar for tax except for purposes of revenue only, and demand that the collection of such taxes be imposed by the Government when only honestly and economically administered.

We denounce the McKinley tariff law enacted by the Fifty-first Congress as the culminating atrocity of class legislation; we indorse the efforts made by the Democrats of the present Congress to modify its most oppressive features in the direction of free raw materials and cheaper manufactured goods that enter into general consumption; and we promise its repeal as one of the beneficent results that will follow the action of the people in intrusting power to the Democratic Party. Since the McKinley tariff went into operation there have been ten reductions of the wages of laboring men to one increase. We deny that there has been any increase of prosperity to the country since that tariff went into operation, and we point to the dullness and distress, the wage reductions and strikes in the iron trade, as the best possible evidence that no such prosperity has resulted from the McKinley act.

We call the attention of thoughtful Americans to the fact that after thirty years of restrictive taxes against the importation of foreign wealth in exchange for our agricultural surplus, the homes and farms of the country have become burdened with a real estate mortgage debt of over \$2,500,000,000, exclusive of all other forms of indebtedness; that in one of the chief agricultural States of the West there appears a real estate mortgage debt averaging \$165 per capita of the total population, and that similar conditions and tendencies are shown to exist in the other agricultural exporting States. We denounce a policy which fosters no industry so much as it does that of the sheriff.

IV.—Trade interchange on the basis of reciprocal advantages to the countries participating is a time-honored doctrine of the Democratic faith, but we denounce the sham reciprocity which juggles with the people's desire for enlarged foreign markets and freer exchanges by pretending to establish closer trade relations for a country whose articles of export are almost exclusively agricultural products with other countries that are also agricultural, while erecting a Custom House barrier of prohibitive tariff taxes against the richest countries of the world, that stand ready to take our entire surplus of products and to exchange therefor commodities which are necessities and comforts of life among our own people.

V.—We recognize in the trusts and combinations which are designed to enable capital to secure more than its just share of the joint product of capital and labor, a natural consequence of the prohibitive taxes which prevent the free competition which is the life of honest trade, but we believe their worst evils can be abated by law, and we demand the rigid enforcement of the laws made to prevent and control them, together with such further legislation in restraint of their abuses as experience may show to be necessary.

VI.—The Republican Party, while professing a policy of reserving the public land for small holdings by actual settlers, has given away the people's heritage, till now a few railroads and non-resident aliens, individual and corporate, possess a larger area than that of all our farms between the two seas. The last Democratic Administration reversed the improvident and unwise policy of the Republican Party touching the public domain, and reclaimed from corporations and syndicates, alien and domestic, and restored to the people nearly 100,000,000 acres of valuable land, to be sacredly held as homesteads for our citizens, and we pledge ourselves to continue this policy until every acre of land so unlawfully held shall be reclaimed and restored to the people.

VII.—We denounce the Republican legislation known as the Sherman act of 1890 as a cowardly

makeshift, fraught with possibilities of danger in the future which should make all of its supporters, as well as its author, anxious for its speedy repeal. We hold to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver, without discriminating against either metal or charge for mintage, but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable value, or be adjusted through international agreement, or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals, and the equal power of every dollar at all times in the markets and in the payment of debts, and we demand that all paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for the protection of the farmers and laboring classes, the first and most defenseless victims of unstable money and a fluctuating currency.

VIII.—We recommend that the prohibitory 10 per cent. tax on State bank issues be repealed.

IX.—Public office is a public trust. We reaffirm the declaration of the Democratic National Convention of 1876 for the reform of the civil service, and we call for the honest enforcement of all laws regulating the same. The nomination of a President, as in the recent Republican Convention, by delegations composed largely of his appointees, holding office at his pleasure, is a scandalous satire upon free popular institutions and a startling illustration of the methods by which a President may gratify his ambition. We denounce a policy under which Federal office-holders usurp control of party conventions in the States, and we pledge the Democratic Party to the reform of these and all other abuses which threaten individual liberty and local self-government.

X.—The Democratic Party is the only party that has ever given the country a foreign policy consistent and vigorous, compelling respect abroad and inspiring confidence at home. While avoiding entangling alliances, it has aimed to cultivate friendly relations with other nations, and especially with our neighbors on the American Continent, whose destiny is closely linked with our own, and we view with alarm the tendency to a policy of irritation and bluster which is liable at any time to confront us with the alternative of humiliation or war. We favor the maintenance of a navy strong enough for all purposes of national defense and to properly maintain the honor and dignity of the country abroad.

XI.—This country has always been the refuge of the oppressed from every land—exiles for conscience sake—and in the spirit of the founders of our Government we condemn the oppression practiced by the Russian Government upon its Lutheran and Jewish subjects, and we call upon our National Government, in the interest of justice and humanity, by all just and proper means, to use its prompt and best efforts to bring about a cessation of these cruel persecutions in the dominions of the Czar and to secure to the oppressed equal rights.

We tender our profound and earnest sympathy to those lovers of freedom who are struggling for home rule and the great cause of local self-government in Ireland.

XII.—We heartily approve all legitimate efforts to prevent the United States from being used as the dumping ground for the known criminals and professional paupers of Europe, and we demand the rigid enforcement of the laws against Chinese immigration or the importation of foreign workmen under contract, to degrade American labor and lessen its wages, but we condemn and denounce any and all attempts to restrict the immigration of the industrious and worthy of foreign lands.

XIII.—This convention hereby renews the expression of appreciation of the patriotism of the soldiers and sailors of the Union in the war for its preservation, and we favor just and liberal pensions for all disabled Union soldiers, their widows and dependents, but we demand that the work of the Pension Office shall be done industriously, impartially and honestly. We denounce the present administration of that office as incompetent, corrupt, disgraceful and dishonest.

XIV.—The Federal Government should care for and improve the Mississippi River and other great waterways of the Republic, so as to secure for the interior States easy and cheap transportation to the tidewater. When any waterway of the Republic is of sufficient importance to demand the aid of the Government, such aid should be extended on a definite plan of continuous work until permanent improvement is secured.

XV.—For purposes of national defense and the promotion of commerce between the States, we recognize the early construction of the Nicaragua Canal and its protection against foreign control as of great importance to the United States.

XVI.—Recognizing the World's Columbian Exposition as a national undertaking of vast importance, in which the General Government has invited the co-operation of all the powers of the world, and appreciating the acceptance by many of such powers of the invitation so extended, and the broad and liberal efforts being made by them to contribute to the grandeur of the undertaking, we are of the opinion that Congress should make such necessary financial provision as shall be requisite to the maintenance of the national honor and public faith.

XVII.—Popular education being the only safe basis of popular suffrage, we recommend to the several States most liberal appropriations for the public schools. Free common schools are the nursery of good government, and they have always received the fostering care of the Democratic Party, which favors every means of increasing intelligence. Freedom of education, being an essential of civil and religious liberty, as well as a necessity for the development of intelligence, must not be interfered with under any pretext whatever. We are opposed to State interference with parental rights and rights of conscience in the education of children, as an infringement of the fundamental Democratic doctrine that the largest individual liberty consistent with the rights of others insures the highest type of American citizenship and the best government.

XVIII.—We approve the action of the present House of Representatives in passing bills for the admission into the Union as States of the Territories of New Mexico and Arizona, and we favor the early admission of all the Territories having necessary population and resources to admit them to Statehood, and while they remain Territories we hold that the officials appointed to administer the Government of any Territory, together with the Districts of Columbia and Alaska, should be bona-fide residents of the Territory or District in which their duties are to be performed. The Democratic Party believes in home rule and the control of their own affairs by the people of the vicinage.

XIX.—We favor legislation by Congress and State Legislatures to protect the lives and limbs of railway employes and those of other hazardous transportation companies, and denounce the inactivity of the Republican Party, and particularly the Republican Senate, for causing the defeat of measures beneficial and protective to this class of wage-workers.

XX.—We are in favor of the enactment by the States of laws for abolishing the notorious sweating system, for abolishing contract convict labor, and for prohibiting the employment in factories of children under fifteen years of age.

XXI.—We are opposed to all sumptuary laws as an interference with the individual rights of the citizen.

XXII.—Upon this statement of principles and policies, the Democratic Party asks the intelligent judgment of the American people. It asks a change of Administration and a change of party, in order that there may be a change of system and a change of methods, thus assuring the maintenance, unimpaired, of institutions under which the Republic has grown great and powerful.

The following is the first part of the third plank of the platform, as reported by the Committee on Resolutions. The clause of the third plank, beginning with "We denounce" and closing with "economically administered," was substituted for it by the Convention by a vote of 564 to 342.

[III.—We reiterate the oft-repeated doctrines of the Democratic Party that the necessity of the Government is the only justification for taxation, and whenever a tax is unnecessary it is unjustifiable; that when Custom House taxation is levied upon articles of any kind produced in this country, the difference between the cost of labor here and labor abroad, when such a difference exists, fully measures any possible benefits to labor, and the enormous additional impositions of the existing tariff fall with crushing force upon our farmers and workingmen, and, for the mere advantage of the few whom it enriches, exacts from labor a grossly unjust share of the expenses of the Government, and we demand such a revision of the tariff laws as will remove their iniquitous inequalities, lighten their oppressions, and put them on a constitutional and equitable basis. But, in making reduction in taxes, it is not proposed to injure any domestic industries, but rather to promote their healthy growth. From the foundation of this Government, taxes collected at the Custom House have been the chief source of Federal revenue. Such they must continue to be. Moreover, many industries have come to rely upon legislation for successful continuance, so that any change of law must be at every step regardful of the labor and capital thus involved. The process of reform must be subject in the execution to this plain dictate of justice.]

National Platform of the Republican Party.

ADOPTED BY THE NATIONAL CONVENTION OF THE REPUBLICAN PARTY AT MINNEAPOLIS,
MINN., JUNE 9, 1892.

The representatives of the Republicans of the United States, assembled in general convention on the shores of the Mississippi River, the everlasting bond of an indestructible Republic, whose most glorious chapter of history is the record of the Republican party, congratulate their countrymen on the majestic march of the nation under the banners inscribed with the principles of our platform of 1888, vindicated by victory at the polls and prosperity in our fields, workshops and mines, and make the following declaration of principles:

We reaffirm the American doctrine of protection. We call attention to its growth abroad. We maintain that the prosperous condition of our country is largely due to the wise revenue legislation of the Republican Congress.

We believe that all articles which cannot be produced in the United States, except luxuries, should be admitted free of duty, and that on all imports coming into competition with the products of American labor there should be levied duties equal to the difference between wages abroad and at home.

We assert that the prices of manufactured articles of general consumption have been reduced under the operations of the tariff act of 1890.

We denounce the efforts of the Democratic majority of the House of Representatives to destroy our tariff laws piecemeal, as is manifested by their attacks upon wool, lead and lead ores, the chief products of a number of States, and we ask the people for their judgment thereon.

We point to the success of the Republican policy of reciprocity, under which our export trade has vastly increased, and new and enlarged markets have been opened for the products of our farms and workshops. We remind the people of the bitter opposition of the Democratic Party to this practical business measure, and claim that, executed by a Republican Administration, our present laws will eventually give us control of the trade of the world.

The American people, from tradition and interest, favor bimetallism. And the Republican Party demands the use of both gold and silver as standard money, with restrictions and under such provisions, to be determined by legislation, as will secure the maintenance of the parity of values of the two metals, so that the purchasing and debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workingmen, demand that every dollar, paper or coin, issued by the Government, shall be as good as any other.

We commend the wise and patriotic steps already taken by our Government to secure an international conference, to adopt such measures as will insure a parity of value between gold and silver for use as money throughout the world.

We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be counted and returned as cast; that such laws shall be enacted and enforced as will secure to every citizen, be he rich or poor, native or foreign-born, white or black, this sovereign right guaranteed by the Constitution.

The free and honest popular ballot, the just and equal representation of all the people, as well as their just and equal protection under the laws, are the foundation of our Republican institutions, and the party will never relax its efforts until the integrity of the ballot and the purity of elections shall be fully guaranteed and protected in every State.

We denounce the continued inhuman outrages perpetrated upon American citizens for political reasons in certain southern States of the Union.

We favor the extension of our foreign commerce, the restoration of our mercantile marine by home-built ships and the creation of a navy for the protection of our national interests and the honor of our flag; the maintenance of the most friendly relations with all foreign powers; entangling alliances with none; and the protection of the rights of our fishermen.

We reaffirm our approval of the Monroe doctrine and believe in the achievement of the manifest destiny of the republic in its broadest sense.

We favor the re-enactment of more stringent laws and regulations for the restriction of criminal, pauper and contract immigration.

We favor efficient legislation by Congress to protect the life and limbs of employes of transportation companies engaged in carrying on interstate commerce, and recommend legislation by the respective States that will protect employes engaged in State commerce, in mining and manufacturing.

The Republican Party has always been the champion of the oppressed, and recognizes the dignity of manhood, irrespective of color or faith, or nationality; it sympathizes with the cause of home rule in Ireland and protests against the persecution of the Jews in Russia.

The ultimate reliance of free popular government is the intelligence of the people and the maintenance of freedom among men. We, therefore, declare anew our devotion to liberty of thought and conscience, of speech and press, and approve all agencies and instrumentalities which contribute

to the education of the children of the land ; but while insisting upon the fullest measure of religious liberty, we are opposed to any union of church and State.

We reaffirm our opposition, declared in the Republican platform of 1888, to all combinations of capital organized in trusts or otherwise to control arbitrarily the condition of trade among our citizens.

We heartily indorse the action already taken upon this subject, and ask for such further legislation as may be required to remedy any defects in existing laws, and to render their enforcement more complete and effective.

We approve the policy of extending to towns, villages and rural communities the advantages of the free delivery service now enjoyed by the larger cities of the country, and reaffirm the declaration contained in the Republican platform of 1888, pledging the reduction of letter postage to one cent at the earliest possible moment consistent with the maintenance of the post-office department and the highest class of postal service.

We commend the spirit and evidence of reform in the civil service and the wise and consistent enforcement by the Republican Party of the laws regulating the same.

The construction of the Nicaragua canal is of the highest importance to the American people, both as a measure of national defense and to build up and maintain American commerce, and it should be controlled by the United States Government.

We favor the admission of the remaining territories at the earliest possible date, having due regard to the interests of the people of the territories and of the United States. All the federal officers appointed for the territories should be selected from bona fide residents thereof, and the right of self-government should be accorded as far as possible.

We favor the cession, subject to the homestead laws, of the arid public lands, to the States and territories in which they lie, under such congressional restrictions as to disposition, reclamation and occupancy by settlers as will secure the maximum benefits to the people.

The World's Columbian Exposition is a great national undertaking, and Congress should promptly enact such reasonable legislation in aid thereof as will insure a discharge of the expense and obligations incident thereto, and the attainment of results commensurate with the dignity and progress of the nation.

We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

Ever mindful of the service and sacrifices of the men who saved the life of the nation, we pledge anew to the veteran soldiers of the republic a watchful care and recognition of their just claims upon a grateful people.

We commend the able, patriotic and thoroughly American administration of President Harrison. Under it the country has enjoyed remarkable prosperity, and the dignity and honor of the nation, at home and abroad, have been faithfully maintained, and we offer the record of pledges kept, as a guaranty of faithful performance in the future.

National Platform of the Prohibition Party.

ADOPTED BY THE NATIONAL CONVENTION OF THE PROHIBITION PARTY, AT
CINCINNATI, OHIO, JUNE 30, 1892.

The Prohibition Party, in National Convention assembled, acknowledging Almighty God as the source of all true government and His law as the standard to which all human enactments must conform to secure the blessings of peace and prosperity, presents the following declaration of principles :

I.—The liquor traffic is a foe to civilization, the arch enemy of popular government and a public nuisance. It is the citadel of the forces that corrupt politics, promote poverty and crime, degrade the nation's home life, thwart the will of the people and deliver our country into the hands of rapacious class interests. All laws that under the guise of regulation legalize and protect this traffic or make the Government share in its ill-gotten gains are "vicious in principle and powerless as a remedy." We declare anew for the entire suppression of the manufacture, sale, importation, exportation and transportation of alcoholic liquors as a beverage by Federal and State legislation, and the full powers of the Government should be exerted to secure this result. Any party that fails to recognize the dominant nature of this issue in American politics is undeserving of the support of the people.

II.—No citizen should be denied the right to vote on account of sex, and equal labor should receive equal wages without regard to sex.

III.—The money of the country should consist of gold, silver and paper, and should be issued by the General Government only, and in sufficient quantities to meet the demands of business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded, and no individual or corporation should be allowed to make any profit through its issue. It should be made a legal tender for the payment of all debts, public and private. Its volume should be fixed at a definite sum per capita and made to increase with our increase in population.

IV.—Tariff should be levied only as a defense against foreign governments which levy tariff upon or bar out our products from their markets, revenue being incidental. The residue of means necessary to an economical administration of the Government should be raised by levying a burden on what the people possess instead of what we consume.

V.—Railroad, telegraph and other public corporations should be controlled by the Government in the interest of the people, and no higher charges allowed than necessary to give fair interest on the capital actually invested.

VI.—Foreign immigration has become a burden upon industry, one of the factors in depressing wages and causing discontent ; therefore our immigration laws should be revised and strictly enforced. The time of residence for naturalization should be extended, and no naturalized person should be allowed to vote until one year after he becomes a citizen.

VII.—Non-resident aliens should not be allowed to acquire land in this country, and we favor the limitation of individual and corporate ownership of land. All unearned grants of land to railroad companies or other corporations should be reclaimed.

VIII.—Years of inaction and treachery on the part of the Republican and Democratic parties have resulted in the present reign of mob law, and we demand that every citizen be protected in the right of trial by constitutional tribunals.

IX.—All men should be protected by law in their right to one day's rest in seven.

X. Arbitration is the wisest and most economical and humane method of settling national differences.

XI.—Speculation in margins, the cornering of grain, money and products, and the formation of pools, trusts and combinations for the arbitrary advancement of prices should be suppressed.

XII.—We pledge that the Prohibition Party, if elected to power, will ever grant just pensions to disabled veterans of the Union army and navy, their widows and orphans.

XIII.—We stand unequivocally for the American public school, and opposed to any appropriation of public moneys for sectarian schools. We declare that only by united support of such common schools, taught in the English language, can we hope to become and remain a homogeneous and harmonious people.

XIV.—We arraign the Republican and Democratic Parties as false to the standards reared by their founders; as faithless to the principles of the illustrious leaders of the past to whom they do homage with the lips; as recreant to the "higher law," which is as inflexible in political affairs as in personal life; and as no longer embodying the aspirations of the American people or inviting the confidence of enlightened progressive patriotism. Their protest against the admission of "moral issues" into politics is a confession of their own moral degeneracy. The declaration of an eminent authority that municipal misrule is "the one conspicuous failure of American politics" follows as a natural consequence of such degeneracy, and is true alike of cities under Republican and Democratic control. Each accuses the other of extravagance in congressional appropriations and both are alike guilty; each protests when out of power against the infraction of the civil-service laws, and each when in power violates those laws in letter and spirit; each professes fealty to the interests of the toiling masses, but both covertly truckle to the money power in their administration of public affairs. Even the tariff issue, as represented in the Democratic Mills bill and the Republican McKinley bill, is no longer treated by them as an issue upon great and divergent principles of government, but is a mere catering to different sectional and class interests. The attempt in many States to wrest the Australian ballot system from its true purpose and to so deform it as to render it extremely difficult for new parties to exercise the right of suffrage is an outrage upon popular government. The competition of both the parties for the vote of the slums and their assiduous courting of the liquor power and subserviency to the money power has resulted in placing those powers in the position of practical arbiters of the destinies of the nation. We renew our protests against these perilous tendencies and invite all citizens to join us in the upbuilding of a party that has shown in five national campaigns that it prefers temporary defeat to an abandonment of the claims of justice, sobriety, personal rights and the protection of American homes.

XV.—Recognizing and declaring that prohibition of the liquor traffic has become the dominant issue in national politics, we invite to full party fellowship all those who on this one dominant issue are with us agreed, in the full belief that this party can and will remove sectional differences, promote national unity and insure the best welfare of our entire land.

XVI.—*Resolved*, That we favor a liberal appropriation by the Federal Government for the World's Columbian Exposition, but only on the condition that the sale of intoxicating drinks upon the Exposition grounds is prohibited, and that the Exposition be kept closed on Sunday.

National Platform of the People's Party.

ADOPTED BY THE NATIONAL CONVENTION OF THE PEOPLE'S PARTY, AT OMAHA, NEB.,

JULY 4, 1892.

Assembled upon the 116th anniversary of the Declaration of Independence, the People's party of America, in their first national convention, invoking upon their action the blessing of Almighty God, put forth in the name and on behalf of the people of this country, the following preamble and declaration of principles:

PREAMBLE.

The conditions which surround us best justify our co-operation; we meet in the midst of a nation brought to the verge of moral, political and material ruin. Corruption dominates the ballot-box, the Legislatures, the Congress, and touches even the ermine of the bench. The people are demoralized; most of the States have been compelled to isolate the voters at the polling places to prevent universal intimidation and bribery. The newspapers are largely subsidized or muzzled, public opinion silenced, business prostrated, homes covered with mortgages, labor impoverished, and the land concentrating in the hands of capitalists. The urban workmen are denied the right to organize for self-protection, imported pauperized labor beats down their wages, a hireling standing army, unrecognized by our laws, is established to shoot them down, and they are rapidly degenerating into European conditions. The fruits of the toil of millions are boldly stolen to build up colossal fortunes for a few, unprecedented in the history of mankind; and the possessors of those, in turn, despise the Republic and endanger liberty. From the same prolific womb of governmental injustice we breed the two great classes—tramps and millionaires.

The national power to create money is appropriated to enrich bondholders; a vast public debt payable in legal tender currency has been funded into gold-bearing bonds, thereby adding millions to the burdens of the people.

Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold by decreasing the value of all forms of property as well as human labor, and the supply of currency is purposely abridged to fatten usurers, bankrupt enterprise and enslave industry. A vast conspiracy against mankind has been organized on two continents and it is rapidly taking possession of the world. If not met and overthrown at once it forbodes terrible social convulsions, the destruction of civilization or the establishment of an absolute despotism.

We have witnessed for more than a quarter of a century the struggles of the two great political parties for power and plunder, while grievous wrongs have been inflicted upon the suffering people. We charge that the controlling influences dominating both these parties have permitted the existing dreadful conditions to develop without serious effort to prevent or restrain them. Neither do they now promise us any substantial reform. They have agreed together to ignore, in the coming campaign, every issue but one. They propose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff, so that capitalists, corporations, national banks, rings, trusts, watered stock, the demonetization of silver and the oppressions of the usurers may all be lost sight of. They propose to sacrifice our homes, lives and children on the altar of mammon; to destroy the multitude in order to secure corruption funds from the millionaires. Assembled on the anniversary of the birthday of the nation, and filled with the spirit of the grand general and chief who established our independence, we seek to restore the government of the Republic to the hands of "the plain people," with which class it originated. We assert our purposes to be identical with the purposes of the National Constitution; to form a more perfect union and establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare and secure the blessings of liberty for ourselves and our posterity. We declare that this Republic can only endure as a free government while built upon the love of the whole people for each other and for the nation; that it cannot be pinned together

by bayonets; that the civil war is over and that every passion and resentment which grew out of it must die with it, and that we must be in fact, as we are in name, one united brotherhood of free men.

Our country finds itself confronted by conditions for which there is no precedent in the history of the world; our annual agricultural productions amount to billions of dollars in value, which must, within a few weeks or months, be exchanged for billions of dollars' worth of commodities consumed in their production; the existing currency supply is wholly inadequate to make this exchange; the results are falling prices, the formation of combines and rings, the impoverishment of the producing class. We pledge ourselves that if given power we will labor to correct these evils by wise and reasonable legislation, in accordance with the terms of our platform.

We believe that the power of government—in other words, of the people—should be expanded (as in the case of the postal service) as rapidly and as far as the good sense of an intelligent people and the teachings of experience shall justify, to the end that oppression, injustice and poverty shall eventually cease in the land.

While our sympathies as a party of reform are naturally upon the side of every proposition which will tend to make men intelligent, virtuous and temperate, we nevertheless regard these questions, important as they are, as secondary to the great issues now pressing for solution, and upon which not only our individual prosperity but the very existence of free institutions depend; and we ask all men to first help us to determine whether we are to have a republic to administer before we differ as to the conditions upon which it is to be administered, believing that the forces of reform this day organized will never cease to move forward until every wrong is remedied and equal rights and equal privileges securely established for all the men and women of this country.

PLATFORM.

We declare, therefore—

First.—That the union of the labor forces of the United States this day consummated shall be permanent and perpetual; may its spirit enter into all hearts for the salvation of the republic and the uplifting of mankind.

Second.—Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robbery. "If any will not work, neither shall he eat." The interests of rural and civic labor are the same; their enemies are identical.

Third.—We believe that the time has come when the railroad corporations will either own the people or the people must own the railroads, and should the government enter upon the work of owning and managing all railroads, we should favor an amendment to the constitution by which all persons engaged in the government service shall be placed under a civil-service regulation of the most rigid character, so as to prevent the increase of the power of the national administration by the use of such additional government employes.

Finance.—We demand a national currency, safe, sound and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the use of banking corporations, a just, equitable and efficient means of distribution direct to the people, at a tax not to exceed 2 per cent. per annum, to be provided as set forth in the sub-treasury plan of the Farmers' Alliance, or a better system; also by payments in discharge of its obligations for public improvements.

1. We demand free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.
2. We demand that the amount of circulating medium be speedily increased to not less than \$50 per capita.

3. We demand a graduated income tax.
4. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all State and national revenues shall be limited to the necessary expenses of the government, economically and honestly administered.

5. We demand that postal savings banks be established by the government for the safe deposit of the earnings of the people and to facilitate exchange.

Transportation.—Transportation being a means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people. The telegraph, telephone, like the post-office system, being a necessity for the transmission of news, should be owned and operated by the government in the interest of the people.

Land.—The land, including all the natural sources of wealth, is the heritage of the people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.

EXPRESSION OF SENTIMENTS.

Your Committee on Platform and Resolutions beg leave unanimously to report the following:

Whereas, Other questions have been presented for our consideration, we hereby submit the following, not as a part of the Platform of the People's Party, but as resolutions expressive of the sentiment of this Convention:

1. *Resolved*, That we demand a free ballot and a fair count in all elections, and pledge ourselves to secure it to every legal voter without Federal intervention, through the adoption by the States of the unperturbed Australian or secret ballot system.

2. *Resolved*, That the revenue derived from a graduated income tax should be applied to the reduction of the burden of taxation now levied upon the domestic industries of this country.

3. *Resolved*, That we pledge our support to fair and liberal pensions to ex-Union soldiers and sailors.

4. *Resolved*, That we condemn the fallacy of protecting American labor under the present system, which opens our ports to the pauper and criminal classes of the world and crowds out our wage-earners; and we denounce the present ineffective laws against contract labor, and demand the further restriction of undesirable emigration.

5. *Resolved*, That we cordially sympathize with the efforts of organized workingmen to shorten the hours of labor, and demand a rigid enforcement of the existing eight-hour law on Government work, and ask that a penalty clause be added to the said law.

6. *Resolved*, That we regard the maintenance of a large standing army of mercenaries, known as the Pinkerton system, as a menace to our liberties, and we demand its abolition; and we condemn the recent invasion of the Territory of Wyoming by the hired assassins of plutocracy, assisted by Federal officers.

7. *Resolved*, That we commend to the favorable consideration of the people and the reform press the legislative system known as the initiative and referendum.

8. *Resolved*, That we favor a constitutional provision limiting the office of President and Vice-President to one term, and providing for the election of Senators of the United States by a direct vote of the people.

9. *Resolved*, That we oppose any subsidy or national aid to any private corporation for any purpose.

The Presidential Election of 1892.

The next Presidential election will take place on Tuesday, November 8, of the present year.

The President and Vice-President of the United States are chosen by officials termed "Electors" in each State, who are, under existing State laws, chosen by the qualified voters thereof by ballot, on the first Tuesday after the first Monday of November in every fourth year preceding the year in which the Presidential term expires.

The Constitution of the United States prescribes that each State shall "appoint," in such manner as the Legislature thereof may direct, a number of electors equal to the whole number of senators and representatives to which the State may be entitled in Congress; but no senator or representative or person holding an office of trust or profit under the United States shall be an elector. The Constitution requires that the day when electors are chosen shall be the same throughout the United States. At the beginning of our Government most of the electors were chosen by the Legislatures of their respective States, the people having no direct participation in their choice; and one State, South-Carolina, continued that practice down to the breaking out of the Civil War. But in all the States now the Presidential electors are, under the direction of State laws, chosen by the people, in some States by congressional districts, but in most on a general State ticket.

The manner in which the chosen electors meet and ballot for a President and Vice-President of the United States is provided for in Article XII. of the Constitution, and is as follows:

The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit, sealed, to the seat of government of the United States, directed to the President of the Senate.

The same article then prescribes the mode in which the Congress shall count the ballots of the electors, and announce the result thereof, which is as follows:

The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed; and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two thirds of the whole number of senators, and a majority of the whole number shall be necessary to a choice.

The procedure of the two houses, in case the returns of the election of electors from any State are disputed, is provided in the "Electoral Count" Act, passed by the Forty-ninth Congress.

The Constitution also defines who is eligible for President of the United States, as follows:

No person except a natural-born citizen or a citizen of the United States at the time of the adoption of this Constitution shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of 35 years.

The qualifications for Vice-President are the same.

The "Electoral Count" Act directs that the Presidential electors shall meet and give their votes on the second Monday in January next following their election. It fixes the time when Congress shall be in session to count the ballots as the second Wednesday in February succeeding the meeting of the electors.

Presidential Elections.

FROM 1789 TO 1888.

AGGREGATE POPULAR VOTE AND ELECTORAL VOTE FOR CANDIDATES FOR PRESIDENT AND VICE-PRESIDENT AT EACH ELECTION.

NOTE.—There is, properly speaking, no popular vote for President and Vice-President; the people vote for electors, and those chosen in each State meet therein and vote for the candidates for President and Vice-President. The record of any popular vote for electors prior to 1824 is so meagre and imperfect that a compilation would be useless. In most of the States, for more than a quarter century following the establishment of the Government, the State Legislatures “appointed” the Presidential electors, and the people therefore voted only indirectly for them, their choice being expressed by their votes for members of the Legislature. In this tabulation only the aggregate electoral votes for candidates for President and Vice-President in the first nine quadrennial elections appear.

ELECTORAL VOTES.

1789. Previous to 1804, each elector voted for two candidates for President. The one who received the largest number of votes was declared President and the one who received the next largest number of votes was declared Vice-President. The electoral votes for the first President of the United States were : George Washington, 69 ; John Adams, of Massachusetts, 34 ; John Jay, of New-York, 9 ; R. H. Harrison, of Maryland, 6 ; John Rutledge, of South Carolina, 6 ; John Hancock, of Massachusetts, 4 ; George Clinton, of New-York, 3 ; Samuel Huntingdon, of Connecticut, 2 ; John Milton, of Georgia, 2 ; James Armstrong, of Georgia, Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, one vote each. Vacancies (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

1792. George Washington, Federalist, received 132 votes ; John Adams, Federalist, 77 ; George Clinton, of New-York, Republican (a), 50 ; Thomas Jefferson, of Virginia, Republican, 4 ; Aaron Burr, of New-York, Republican, one vote. Vacancies, 3. George Washington was chosen President and John Adams Vice-President.

1796. John Adams, Federalist, 71 ; Thomas Jefferson, Republican, 68 ; Thomas Pinckney, of South Carolina, Federalist, 59 ; Aaron Burr, of New-York, Republican, 30 ; Samuel Adams, of Massachusetts, Republican, 15 ; Oliver Ellsworth, of Connecticut, Independent, 11 ; George Clinton, of New-York, Republican, 7 ; John Jay, of New-York, Federalist, 5 ; James Iredell, of North Carolina, Federalist, 3 ; George Washington, of Virginia. John Henry, of Maryland, and S. Johnson, of North Carolina, all Federalists, two votes each ; Charles Cotesworth Pinckney, of South Carolina, Federalist, one vote. John Adams was chosen President and Thomas Jefferson Vice-President.

1800. Thomas Jefferson, Republican, 73 ; Aaron Burr, Republican, 73 ; John Adams, Federalist, 65 ; Charles C. Pinckney, Federalist, 64 ; John Jay, Federalist, one vote. There being a tie vote for Jefferson and Burr, the choice devolved upon the House of Representatives. Jefferson received the votes of ten States, which, being the largest vote cast for a candidate, elected him President. Burr received the vote of four States, which, being the next largest vote, elected him Vice-President. There were two blank votes.

1804. The Constitution of the United States having been amended, the electors at this election voted for a President and a Vice-President, instead of for two candidates for President. The result was as follows : For President, Thomas Jefferson, Republican, 162 ; Charles C. Pinckney, Federalist, 14. For Vice-President, George Clinton, Republican, 162 ; Rufus King, of New-York, Federalist, 14. Jefferson was chosen President and Clinton Vice-President.

1808. For President, James Madison, of Virginia, Republican, 122 ; Charles C. Pinckney, of South Carolina, Federalist, 47 ; George Clinton, of New-York, Republican, 6. For Vice-President, George Clinton, Republican, 113 ; Rufus King, of New-York, Federalist, 47 ; John Langdon, of New-Hampshire, 9 ; James Madison, 3 ; James Monroe, 3 ; Vacancy, 1. Madison was chosen President and Clinton Vice-President.

1812. For President, James Madison, Republican, 128 ; DeWitt Clinton, of New-York, Federalist, 89. For Vice-President, Elbridge Gerry, of Massachusetts, Republican, 131 ; Jared Ingersoll, of Pennsylvania, Federalist, 86. Vacancy, 1. Madison was chosen President and Gerry Vice-President.

1816. For President, James Monroe, of Virginia, Republican, 183 ; Rufus King, of New-York, Federalist, 34. For Vice-President, Daniel D. Tompkins, of New-York, Republican, 183 ; John Eager Howard, of Maryland, Federalist, 22 ; James Ross, of Pennsylvania, 5 ; John Marshall, of Virginia, 4 ; Robert G. Harper, of Maryland, 3. Vacancies, 4. Monroe was chosen President and Tompkins Vice-President.

1820. For President, James Monroe, of Virginia, Republican, 231 ; John Q. Adams, of Massachusetts, Opposition, 1. For Vice-President, Daniel D. Tompkins, Republican, 218 ; Richard Stockton, of New-Jersey, 8 ; Daniel Rodney, of Delaware, 4 ; Robert G. Harper, of Maryland, and Richard Rush, of Pennsylvania, one vote each. Vacancies, 3. James Monroe was chosen President and Daniel D. Tompkins Vice-President.

The Australian Ballot System.

WHAT is termed the Australian Ballot System, the professed purposes of which are to secure the secrecy of the ballot and prevent the intimidation or corrupting of the voter, was practically introduced into the United States in 1888 by its adoption by law in the State of Massachusetts and the city of Louisville, Ky. The principle of this system was embodied in the so-called Saxton bill, which passed the New-York Legislature in the sessions of 1888 and 1889, and was vetoed both times by Governor Hill, on the ground of its unconstitutionality, in that it would embarrass, hinder and impede voters in exercising the suffrage, and would, for one class of voters, the blind and illiterate, destroy the secrecy of the ballot by compelling an avowal of their votes as a condition of exercising the right. At the instance of Governor Hill, a reformed ballot bill, or modification of the Saxton bill, was introduced in the Legislature in the session of 1889, but was not passed; but another bill, a compromise of the Hill and Saxton plans, met with success in 1890, and it was amended in some particulars, without changing its general form, in 1891.

In 1889, following the example of Massachusetts, the Legislatures of Indiana, Montana, Rhode-Island, Wisconsin, Tennessee, Minnesota, Missouri, Michigan and Connecticut, in the order given, passed laws adopting the new system of voting. Most of the laws passed adhered closely to the Massachusetts form. The Connecticut form varied from it more than the others. In 1890 laws which are more or less modifications of the Australian system were adopted by the Legislatures of Washington, New-York, Maryland, New-Jersey and Vermont.

PROGRESS IN 1891.

In 1891 the Legislatures of the States of Arkansas, California, Colorado, Delaware, Idaho, Illinois, Maine, Nebraska, Nevada, New-Hampshire, North-Dakota, Ohio, Oregon, South-Dakota and West-Virginia, and the Territory of Arizona adopted laws based on the Australian system.

This left but twelve States and Territories without this law—to wit: the Western States of Iowa and Kansas, the eight Southern States of Virginia, North-Carolina, South-Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana, and the Territories of Utah and New-Mexico. It is safe to assume that some of these States, the Legislatures of which, under the biennial system, will sit next year, will join the majority in adopting some form of a ballot law. In Kansas last year a reformed ballot bill passed one branch of the Legislature of that State.

FORM OF BALLOT.

The distinctive feature of the ballot practice in New-South-Wales is, that the names of all the candidates being on one ticket, the names of persons for whom the voter does not wish to vote must be crossed off, a blue lead-pencil being provided for the purpose by the authorities, while there are clearly printed on the ticket, in red ink, directions as to how many candidates must be voted for. If more than the limit are voted for the ballot is informal.

Under the New-York and New-Jersey laws each party ticket is printed on a separate ballot. For straight voting, therefore, no marking is required. For the benefit mainly of the illiterate or blind, as claimed, the paster ballot is permitted in New-York.

In all the other States which have adopted the reformed system of voting, the single or "blanket" ballot is used. All the names in nomination are printed on one sheet, the voter's choice to be indicated by marking. There are two methods used of grouping the names of the candidates. The Australian plan arranges the titles of the offices alphabetically, the names of the candidates, and usually their party connection, being attached.

The States which follow this plan, with more or less variation in the form, but preserving the feature of alphabetical arrangement of titles of offices to be voted for, are California, Kentucky, Massachusetts, Minnesota, Montana, Nebraska, New-Hampshire, Oregon, Rhode-Island, Tennessee, Vermont, Washington and Wyoming.

The other form groups all names and offices by parties. It is illustrated by the following diagram of a ballot:

| Democratic. | Republican. | Prohibition. | People's. |
|---|--|--------------------------------------|--|
| ○ | ○ | ○ | ○ |
| <i>For Governor.</i> | <i>For Governor.</i> | <i>For Governor.</i> | <i>For Governor.</i> |
| <input type="checkbox"/> William Smith. | <input type="checkbox"/> Thomas Jones. | <input type="checkbox"/> John Brown. | <input type="checkbox"/> Henry Robinson. |

The voter of a straight ticket marks a cross in the circle at the head of his ticket. The voter who scatters marks the squares opposite the names of all the candidates on the tickets.

The States and Territories which use this plan, with or without immaterial variations, are Delaware, Illinois, Indiana, Maine, Maryland, Missouri, Ohio, Wisconsin and Oklahoma.

Naturalization Laws of the United States.

THE conditions under and the manner in which an alien may be admitted to become a citizen of the United States are prescribed by Sections 2165-74 of the Revised Statutes of the United States.

DECLARATION OF INTENTION.

The alien must declare upon oath before a circuit or district court of the United States, or a district or supreme court of the Territories, or a court of record of any of the States having common law jurisdiction, and a seal and clerk, two years at least prior to his admission, that it is, *bona fide*, his intention to become a citizen of the United States, and to renounce forever all allegiance and fidelity to any foreign prince or State, and particularly to the one of which he may be at the time a citizen or subject.

OATH ON APPLICATION FOR ADMISSION.

He must, at the time of his application to be admitted, declare on oath, before some one of the courts above specified, "that he will support the Constitution of the United States, and that he absolutely and entirely renounces and abjures all allegiance and fidelity to every foreign prince, potentate, State or sovereignty, and particularly, by name, to the prince, potentate, State or sovereignty of which he was before a citizen or subject, "which proceedings must be recorded by the clerk of the court."

CONDITIONS FOR CITIZENSHIP.

If it shall appear to the satisfaction of the court to which the alien has applied that he has resided continuously within the United States for at least five years, and within the State or Territory where such court is at the time held one year at least; and that during that time "he has behaved as a man of good moral character, attached to the principles of the Constitution of the United States, and well disposed to the good order and happiness of the same," he will be admitted to citizenship.

TITLES OF NOBILITY.

If the applicant has borne any hereditary title or order of nobility, he must make an express renunciation of the same at the time of his application.

SOLDIERS.

Any alien of the age of twenty-one years and upward, who has been in the armies of the United States and has been honorably discharged therefrom, may become a citizen on his petition, without any previous declaration of intention, provided that he has resided in the United States at least one year previous to his application, and is of good moral character. (It is judicially decided that residence of one year in a particular State is not requisite.)

MINORS.

Any alien under the age of twenty-one years who has resided in the United States three years next preceding his arriving at that age, and who has continued to reside therein to the time he may make application to be admitted a citizen thereof, may, after he arrives at the age of twenty-one years, and after he has resided five years within the United States, including the three years of his minority, be admitted a citizen; but he must make a declaration on oath and prove to the satisfaction of the court that for two years next preceding it has been his *bona fide* intention to become a citizen.

CHILDREN OF NATURALIZED CITIZENS.

The children of persons who have been duly naturalized, being under the age of twenty-one years at the time of the naturalization of their parents, shall, if dwelling in the United States, be considered as citizens thereof.

CITIZENS' CHILDREN WHO ARE BORN ABROAD.

The children of persons who now are or have been citizens of the United States are, though born out of the limits and jurisdiction of the United States, considered as citizens thereof.

CHINESE.

The naturalization of Chinamen is expressly prohibited by Section 14, Chapter 126, Laws of 1882.

PROTECTION ABROAD TO NATURALIZED CITIZENS.

Section 2000 of the Revised Statutes of the United States declares that "all naturalized citizens of the United States while in foreign countries are entitled to and shall receive from this Government the same protection of persons and property which is accorded to native-born citizens."

THE RIGHT OF SUFFRAGE.

The right to vote comes from the State, and is a State gift. Naturalization is a Federal right, and is a gift of the Union, not of any one State. In nearly one half the Union aliens (who have declared intentions) vote and have the right to vote equally with naturalized or native-born citizens. In the other half only actual citizens may vote. (See Table of Qualifications for Voting in each State, on another page.) The Federal naturalization laws apply to the whole Union alike, and provide that no alien may be naturalized until after five years' residence. Even after five years' residence and due naturalization he is not entitled to vote unless the laws of the State confer the privilege upon him, and he may vote in one State (Minnesota) four months after landing, if he has immediately declared his intention, under United States law, to become a citizen.

‡ To obtain the Democratic proportion of the vote which was combined with that of the Farmers' Alliance in three districts in Kansas, the vote given in those districts for the Democratic candidate for Governor has been eliminated. It was 28,464, and that may be taken approximately as the Democratic part of the combined vote for Congressmen. By a similar process the Democratic part of the combined vote in one district in Minnesota is found to be approximately 12,694.

The above is the vote for Governor in 1890 by the face of the returns. The State constitution requires that a candidate, to be elected by the popular vote, shall have a clear majority of all the votes cast in the election. The vote of Morris, Dem., by the face of the returns was 67,662, and all the other votes cast, including scattering, were 67,636, showing a majority of 26 for Morris. Some Republican and Prohibition votes for Governor were rejected by the local canvassers for informality. If these were counted, Morris would fail of a majority over all. Upon this issue the legislature came to a deadlock upon all the candidates for State officers, except Staub, the Democratic candidate for comptroller, who was declared elected. The other offices are occupied by the incumbents of the previous two years, who hold over. The Senate, which is Democratic, recognized Morris and the other Democratic candidates, and swore them into office, while the Republican house refused to recognize them, except Staub, and contended for going behind the returns and counting the informal votes.

For other State officers in 1890, all the Democratic candidates had by the face of the returns clear majorities over all, as follow: Lieutenant-Governor, Alsop, 588; Secretary of State, Phelan, 544; Treasurer, Sanger, 290; Comptroller, Staub, 1,662.

VOTE FOR REPRESENTATIVES IN CONGRESS, 1890.

THE Secretary of the Treasury, in preparing his annual report of 1886, applied to Worthington C. Ford, Chief of the Bureau of Statistics of the State Department, E. B. Elliott, the United States Government Actuary, and Professor Simon Newcomb, Superintendent of the Nautical Almanac, Navy Department, severally, for an estimate of the number of persons in the United States engaged in gainful occupations, classified as those who cannot be subjected to foreign competition and those who can, in part, be subjected to foreign competition.

Each of these statistical experts made a report. Mr. Ford stated that the total number of persons engaged in gainful occupations in the United States, according to the census of 1880, was 17,392,099, divided as follows: Agriculture, 7,670,493; manufactures, mechanics, and mining, 3,837,112; professional and personal, 4,074,238. Trade and transportation, 1,810,256. Setting aside the last two classes as not being subject to foreign competition, Mr. Ford arrived at the following result:

the percentage being 4.7 per cent.

Mr. Elliott, by a different process, reached the conclusion that the number of persons who were directly subjected in part to foreign competition was 825,000, or about 4% per cent.

Professor Newcomb reported that his estimate of the persons subject to foreign competition was 905,585, or 5.2-10 per cent of the industrial population, concluding with the observation: "If trade were entirely free, the fraction of our present industrial population injuriously subject to foreign competition would not exceed 7 per cent." In other words, 93 per cent of the people are taxed to protect and enrich seven per cent.

* Jackson called himself a South-Carolinian, and his biographer, Kendall, recorded his birthplace in Lancaster Co., S. C.; but Parton has published documentary evidence to show that Jackson was born in Union Co., N. C., less than a quarter mile from the South-Carolina line. † The Democratic Party of to-day claims lineal descent from the first Republican Party, and President Jefferson as its founder. ‡ Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his administration took the name of Democrats, and elected Jackson President.

More details of the lives of the Presidents were given in THE WORLD ALMANAC for 1890, pages 76-78

THE PRESIDENTIAL SUCCESSION.

The Presidential succession is fixed by chapter 4 of the acts of the Forty-ninth Congress, first session. In case of the removal, death, resignation or inability of both the President and Vice-President, then the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is: The Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy and Secretary of the Interior. The acting President must, upon taking office, convene Congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This act applies only to such Cabinet officers as shall have been appointed by the advice and consent of the Senate, and are eligible under the Constitution to the Presidency.

* Not given in 1890. † Reports discontinued after 1885. ‡ Includes Central and South America for 1889.

As the reports for British North American Provinces and for Mexico have been discontinued since 1885 by the Treasury Department, the figures here represented only cover five years of the decade. An estimate based upon the immigration of the years from 1881 to 1885, inclusive, would give 785,604 to British North America for the decade from 1881 to 1890, and 3,826 to Mexico, making the aggregate for America 817,563. Instead of 422,848.

Mulhall estimates the number of individuals who emigrated from Europe in 72 years, 1816 to 1888, at 27,205,000. Of these, 15,000,000 came to the United States.

THE CARPET-BAG DEBTS OF THE SOUTHERN STATES.

The "carpet-bag" debts of the Southern States, under which some of them are still suffering, were created during the reconstruction period, when the South was at the mercy of adventurers from the North and the ranks of the negro population supported and protected by the Federal Government. These burdens on the helpless people aggregated in 1871 some \$291,626,015, distributed among the reconstructed States as follows: Alabama, \$52,761,917; Arkansas, \$19,398,000; Florida, \$15,797,587; Georgia, \$42,560,500; Louisiana, \$40,021,734; North-Carolina, \$34,887,464; South-Carolina, \$22,480,516; Texas, \$14,930,000; Virginia, \$47,090,866. It must be borne in mind that the debts of the Southern States contracted from 1861 to 1865 were repudiated by order of the Federal Government, so that the indebtedness above shown was due almost wholly to "carpet-bag" financiering.
